Geographic Area: Nanaimo Port Authority – Navigable Waters

Communication: Nanaimo Port Authority Launch Services Tariff Changes - effective July 1, 2022

Reference: <https://npa.ca/harbour-operations/deep-sea-ship-anchorages/>

Details:

Nanaimo Port Authority (NPA) provides launch services to support the ships at anchor within the navigable waters of NPA. To this extent, a standard launch tariff rate applies to all anchorages located within the NPA harbour limits. This rate is inclusive of labour, vessel time, and maintenance of all certifications to Transport Canada requirements.

The current posted rate was established on January 1, 2016; and has not changed since that time.

Therefore, effective July 1, 2022, the NPA Launch Services tariff will be as follows:

- \$750 for a two hour call (24/7)
- \$230 standby rate for each additional hour there after
- Stand down rate of \$275 per tasking

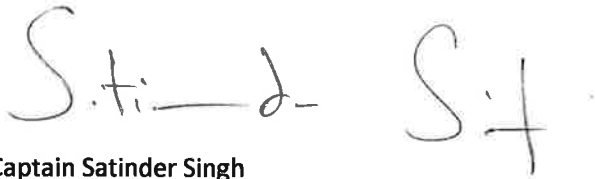

The increase above translates approximately to increases as follows:

- Less than 0.57% increase for two hour call rate/ year,
- Less than 1.16% increase for standby rate/ year, and
- Less than 1.67% increase for the stand down rate/ year.

NPA will make every effort to work co-operatively with the various agencies to ensure that proper invoicing is administered. The Port Authority will work collaboratively with its Port partners to minimize the impact on shippers, agents, terminal operators and greater community.
